

tiago sotinho grosso

Olá! I'm Tiago, a visual designer with over eight years of experience creating captivating digital experiences.

My expertise lies in user interface, branding, illustration and motion design. Drawing from my background in Fine Arts, I pay meticulous attention to detail and strive for pixel-perfect designs that stand out in the digital landscape. I advocate for simple and valuable products and am a design systems aficionado.

I've had the pleasure of working with notable brands such as Pizza Express, Redbull, SKY Broadband, Lowell, Boodles, WHO, and Apple throughout my career.

Whether flying solo or part of a team, I always enjoy bouncing ideas off other creatives to make something truly special. I'm always looking for new trends and tech to keep my designs fresh and effective. Having lived and worked in Portugal and the UK, I'm always inspired by different cultures and people.

I love getting outside and exploring new places for inspiration when not designing. My main goal is to create experiences that resonate with people and leave a lasting impression.

experience to date

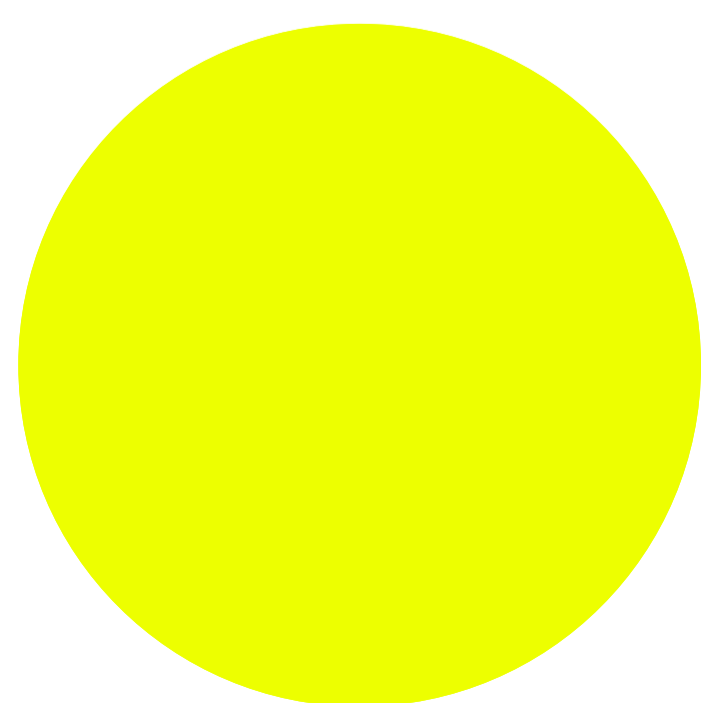

House 337, LDN UK / senior visual designer ————— oct 22' — today

Engine, LDN UK / brand and UI designer ————— aug 20' — oct 22'
